### 2021 Federal Poverty Guidelines used in Poverty Exemption Determinations

Bulletin No. 17 of 2021

Dated: November 16, 2021

MCL 211.7u, which deals with poverty exemptions, was significantly altered by PA 390 of 1994 and was further amended by PA 620 of 2002.

Local governing bodies are required to adopt guidelines that set income levels for their poverty exemption guidelines and those income levels **shall not be set lower** by a city or township than the federal poverty guidelines updated by the U.S. Department of Health and Human Services. This means, for example, that the income level for a household of 3 persons **shall not** be set lower than \$21,720 which is the amount shown on the following chart for a family of 3 persons.

The income level for a family of 3 persons may be set higher than \$21,960. Following are the federal poverty guidelines for use in setting poverty exemption guidelines for 2022 assessments.

<b>Size of Family Unit</b>	<b>Poverty Guidelines</b>
1	\$ 12,880
2	\$ 17,420
3	\$ 21,960
4	\$ 26,500
5	\$ 31,040
6	\$ 35,580
7	\$ 40,120
8	\$ 44,660
<i>For each additional person</i>	<i>\$ 4,540</i>

PA 390 of 1994 states that the Poverty Exemption Guidelines established by the governing body of the local assessing unit shall also include an asset level test. An asset test means the amount of cash, fixed assets, or other property that could be used, or converted to cash for use in the payment of property taxes. The asset test should calculate a maximum amount permitted and all other assets above that amount should be considered available.

Note: PA 135 of 2012 changed the requirements for filing documentation in support of a poverty exemption to allow an affidavit (Treasury form 4988) to be filed for all persons residing in the residence who were not required to file federal or state income tax returns in the current year or in the immediately preceding year. This does include the owner of the property who is filing the exemption.
